WORK EXPERIENCE

User Experience Designer
Pinglabs
Oct 2016-Nov 2016
- Researched dashboards, data visualization, and interviewed pinglabs users and other HR professionals.
- Redesigned the pinglabs dashboard to solve user goals.
- Created annotated Hi-Fi mockups to allow the pinglabs developers to implement our redesign.

Student Web Developer
University of Washington, ACA
June 2011- September 2013
- Worked on the server, admin, and web applications of the award-winning SpaceScout app.
- Lead a team of students designers to create a badge app using Mozilla OpenBadges.
- Created a JavaScript map to track lab computers for use by UW IT.

EDUCATION

Bachelor in Computer Science & Engineering
University of Washington, Jan 2010 to Mar 2015
3.62 Cumulative GPA
General Assembly
User Experience Design Immersive, Aug 2016-Nov 2016
500+ hours of UX design experience and learning.

UX PROJECTS

T-Mobile Tuesdays
- Redesigned the T-Mobile Tuesdays app to solve user goals.
- Researched, sketched, and created wireframes before producing high fidelity axure mockups.

Area 51
- Followed UX process to redesign the furniture store website to create a modern ecommerce experience.
